

Large Area Vacuum Cleaning

The Hawk 20 gallon and 55 gallon tank vacuums are built for years of trouble-free service. Perfect for large volume recovery of liquids and solid wastes.

20 Gallon Engineering Design

- The 20 gallon model is built with a strong roto-molded, easy to clean tank. The tank moves with (2) 10" wheels and (2) 4" front swivel casters, steered with the black powder-coated steel handle.
- Optional front-mount squeegee #V006FMS

55 Gallon Engineering Design

- The 55 gallon model uses a steel band dolly with four 4" caster wheels.
- Optional drain valve #V006-55VALVE

Both Models

- 2-stage, 2 HP, 115V, 60 Hz heavy duty bypass motor. (230V option). 50 ft. 16-3 SJT power cord
- An automatic liquid shut-off prevents motor flooding with foam or solution
- Includes wet/dry tool kit #HVWD20-117
- Includes one acid and mildew resistant, non-pleated washable synthetic cloth dust bag #WDH0001ASSY

Safety Features

- Quiet operation - 78 dB. Meets GS42 standard.
