

Dry Floors, Circulate and Exhaust Air

**HAWK BH25AD Axial
1720 CFM Air Mover**

The HAWK BH25AD Axial Air Mover produces up to 1720 CFM airflow with a variable control dial switch. The low amp draw and dual built-in 12 amp power outlets allows for multiple units to be used in daisy chain.

The metal rack/stand provides 360 degree rotation for multiple positions when drying surfaces or circulating air.

The specially designed blades and fan grille excel in extending a powerful and focused straight stream of air up to 60 feet.

Power

- 1/4 HP motor. 115V / 60 Hz
- The sealed motor design prevents moisture from entering and damaging internal motor components
- 20 foot power cord
- 1 year limited warranty

Engineering Design

- Axial design is efficient and produces up to 1700 CFM
- 360 degree adjustable positions
- Injection molded ABS housing is lightweight and durable
- Two 12 Amp GFCI grounded auxiliary power outlets on the side-mounted control panel. These outlets allow for daisy chain in-line connection of up to 3 units for more effective air flow
- GFCI outlets reduce the risk of electric shock in wet areas and is required by insurance companies paying for water flood cleanup claims
