

Deodorize, Sanitize, Circulate

**HAWK HP25 AOG Axial
Ozone Generator**

The **Hawk HP25 AOG** Axial Ozone Generator creates high concentrations of ozone gas that provides a chemical-free treatment, capable of killing microorganisms, bacteria, virus and strong odors. The integrated axial air mover increases efficiency of the ozone generator and delivers ozone quickly and evenly across large areas. A 3 hour timer provides easy, hands-free usage. We recommend the HP25 AOG to be set for 1-2 hours of treatment.

Use the HP25 AOG for deodorizing medium to large areas like hotel suites, homes, offices and basements. Ozone will eliminate even the most severe odors caused by mold, mildew, tobacco, fire and smoke, flood damage and animal odors.

Power

- 5,000 mg/hour ozone generator
- 1/4 HP, 115V / 60 Hz high torque brushless DC motor
- Fan blades drive air at 1450 CFM

Engineering Design

- “Always-On” timer or 3-hour timer
- Ozone indicator light for safety
- Precise variable speed fan control
- 360 degree rotational stand
- Wrap around odor management
- Injection molded ABS housing

Safety Features

- ETL/CETL certified
- Medical supplies have shown ozone to destroy viruses

Precautions:

- Ozone treatment must be conducted in enclosed spaces. The treatment can only taken place when people, pets and plants are removed.
- After ozone treatment, shut off the ozone generator and run the circulator to reduce ozone levels. Use an ozone meter to measure and manage safe levels of ozone (below 0.2 ppm).
- No claims are made for the ability for this method or equipment to destroy specific bacteria or viruses. Best when used in conjunction with HEPA filtration.

Specifications

Model	HP25 AOG
Motor	1/4 HP, 115V, 60Hz Brushless DC Motor
Air Volume	Variable 0 to 1450 CFM
Amp Draw	1.2 Amp
Ozone Generation	5000 mg/hour
Fan Blade	Axial deep pitch
Housing	Injection Molded ABS
Unit Weight	12.6 lbs.
Unit Size (LxWxH)	15.4 x 8.8 x 17.2 in.
Stackable	Yes
Operating Position	360° Rotation
Power Cord	6 ft.

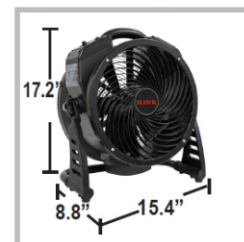

Subject to Change Without Notice

Airflow moves ozone quickly in large rooms

360-degree rotational stand

Small Size

Variable Speed Control
